

Mildenhall College
ACADEMY

Staff now record key assessment data for all subjects and write reports using *Go4Schools*. Once your child is enrolled you will be able to view this information online.

Go4Schools data is stored online and we have been assured that all data is stored securely and the organisation abides by the Data Protection Act, as a result you will only be able to view your own data.

Logging on to *Go4Schools* for the first time

Parents/ guardians can log in by going to:

www.go4schools.com and selecting the 'Parents' icon.

You must put the email address that you have given MCA in the 'First-time user?' box. The site will then send out a password to your email address.

If you have difficulty accessing the site please contact reception.

Parents

Students

Students can use the *Go* short cut on the home page of the MCA intranet or website. Or go directly to this website:

www.go4schools.com

Select the 'Students' icon in the top right-hand corner.

You will need to enter your academy Outlook email address in the 'First-time user?' box and then select 'Please send me a password'.

The site will then send out a password to your Outlook address. This process normally takes no more than a couple of minutes.

When you open your page you can see **subject targets**, **current grades** and **projected grades** as well as your previous reports. You can also keep track of your **attendance** information and see your academy **timetable**.
