

# Support and self help guide

for children, young people and families in Suffolk\*

This booklet is for young people and anyone supporting them. Inside, you will find some top tips on supporting emotional wellbeing, some self-help strategies and information signposting you to where you can get more help if you need it.

# Five ways to wellbeing

Many factors can influence our wellbeing but research says that doing one or more of these five different things regularly can help boost your mood and make you feel happier.

1

## Be active

Go for a walk or run. Step outside. Cycle. Play a game. Do some gardening. Dance. Exercising makes you feel good. Pick something you enjoy and try to do it regularly.

2

## Help someone

Do something nice for a friend or someone you know or give thanks. Smile. Volunteer your time. Join a community group.

3

## Connect with the people around you

With family, friends, colleagues and neighbours. At home, work, school or in your local community.

4

## Try something new and keep learning

Learn to play an instrument or how to cook your favourite food. Set a challenge you will enjoy. It'll help boost your confidence and can be fun.

5

## Take notice

Be aware of the world around you and what you are feeling. Catch sight of the beautiful. Notice the changing seasons. Savour the moment, whether you are walking to school, eating lunch or talking to friends.

# Self help techniques

## Managing anxiety and emotions

### 7/11 breathing technique

Inhale deeply for seven counts and exhale slowly for eleven counts. This technique aims to slow down the heart rate and prevent panic from escalating. We would encourage practising the 7/11 breathing technique for at least 5-10 minutes, or until the feelings of panic and worry decrease.

### 5, 4, 3, 2, 1 grounding technique

Aims to reduce feelings of being overwhelmed and to encourage relaxation:

- Note 5 things - you can **see** around you
- Note 4 things - you can **touch** around you
- Note 3 things - you can **hear**
- Note 2 things - you can **smell**
- Note 1 thing - you can **taste**

### Managing anger

It's okay to feel angry but there are ways to manage anger:

- 1 Breathe slowly
- 2 Relax your body
- 3 Try mindfulness techniques
- 4 Exercise
- 5 Use up your energy in other ways
- 6 Do something to distract yourself mentally or physically

Further information on coping with anger can be found at: [www.mind.org.uk/information-support/types-of-mental-health-problems/anger/about-anger](http://www.mind.org.uk/information-support/types-of-mental-health-problems/anger/about-anger)

# Self soothe box

You could access a self soothe box when you are experiencing symptoms of anxiety. The self soothe box would contain items which should help you feel more relaxed and comfortable.

A self soothe box could be in an easy to reach location, such as a bedroom or in the living room. If possible, you could use this box in a quiet environment which you consider to be safe.

These are items that could be included in your self soothe box:

**Touch:** Items which are interesting to touch, which serve as a good distraction for hands. This may include fidget cubes/spinners, playdough or stress balls. This may encourage muscles to relax, which can help to reduce feelings of anxiety.

**Memories:** These could be items which have positive memories attached to them. This could include photos, toys or novelty items. This may help to boost positive emotions and reduce feelings of worry or frustration.

**Smell:** Smells which can help promote positive feelings and relaxation. This may include peppermint or lavender.

**Music:** This may be a favourite music playlist or music aimed at promoting relaxation. This could be a wind-up music box or played through a music device.

**Water:** Regular sipping of water is a good way to keep a steady rhythm to breathing and heart rate, helping to reduce feelings of worry.

Additional suggestions about items for a self soothe box can be found at [www.youngminds.org.uk/blog/how-to-make-a-self-soothe-box](http://www.youngminds.org.uk/blog/how-to-make-a-self-soothe-box) **Click link or scan QR code**

**There are a number of other suggested self-care things we can do to look after our own mental health – here are some of them:**

**Eat a healthy diet and avoid certain foods**

Swapping processed food for healthier alternatives.

**Try some relaxation techniques**

Having a few minutes in your day just to be aware of your breathing and become fully relaxed can calm the mind completely.

**Take time away from technology**

See how it feels to take yourself away from your phone for a bit, it doesn't have to be for long but it can make a lot of difference.

**Dance**

Put on your favourite songs and have a little boogie in the living room. Even small movements can make a big difference.

**Develop friendships that are important**

Being with people who make you feel confident and good about yourself can really boost your mental health.

**Write three positive things that you did each day**

Writing things down can help to arrange thoughts.

**Be kind to yourself**

Self kindness won't necessarily stop your thoughts or feelings from being difficult, but it might provide some small comfort in the midst of them.

**Talk to a friend about how you are coping**

Ring for a chat could help you get away from how you're feeling.

- Talk to your friends online or find a safe online support group.
- Take part in a photography challenge with your family or friends.
- Create a playlist with your friends.

**Organise your day**

Writing a list and organising yourself may help to prevent stress.

**Try to get showered and dressed each morning**

**Set some goals for the future**

Goal-setting can give you some extra motivation and encouragement. It may also help with your daily routine, giving you something to work towards to get through the day.

# Anxiety

It is impossible to get rid of anxiety, and it would be unhelpful to do that anyway. But if you want to learn more about anxiety, and find ways to support your child/young person so that the anxiety does not get in the way of what's important in their life, then take a look at the following resources:

[www.nsft.nhs.uk/anxiety-resources](http://www.nsft.nhs.uk/anxiety-resources)

# Bereavement support

- **Cruse**

Offers support, advice and information to people who have experienced the death of someone close to them.

- **Nicky's Way (St Nicholas Hospice)**

Offers support to children and young people aged five to 18 who are bereaved due to any cause of death. Call **01284 715572**.

## Young carers

A young carer is a child or young person who helps to look after a relative. This may be due to them having an illness, a disability, mental health concern or a drug or alcohol problem.

Support is available for young carers by contacting:

- **Suffolk Family Carers in Suffolk:**

Visit [www.suffolkfamilycarers.org](http://www.suffolkfamilycarers.org) or call **01473 835477**

- **Suffolk County Council:**

# Apps

There are lots of free apps available which have been assessed by the NHS. You could try some of them to see which ones work best for you. Here are just a few of them:

**Bluelice:** This app helps young people manage their emotions and reduce urges to self-harm.

**Calm Harm:** Reduce urges to self-harm and manage emotions in a more positive way.

**Catch It:** Learn to manage negative thoughts and look at problems differently.

**distrACT:** Quick and discreet access to information and advice about self-harm and suicidal thoughts.

**MeeTwo:** A safe and secure forum for teenagers wanting to discuss any issue affecting their lives.

**Student Health App:** Reduce your worries, feel more confident and get the health information you need as a student.

**ThinkNinja:** Designed to teach young people about mental health, emotional wellbeing and resilience.
